Advanced Pervious Concrete for Everyone with a Current Pervious Certification
August 7, 2013
1:00 pm to 5:00 pm

Mandatory Updates in Mix Designs and Construction Practices for Pervious Concrete
Penny’s Concrete
23400 W. 82nd St.
Shawnee Mission, KS 66227

CPG and MO/KS ACPA will be launching the update to the Specifiers Guide to Pervious Concrete in Kansas City in August 2013. There are changes to the mix design and the construction practices. This is your opportunity to learn about them and how to implement the changes in the field properly.

Outline for the Class:
- They way we’ve always done it?
- New Mix Designs
- To Saw or not to Saw?
  Curing & Sawing when?
  Joint Filler
- Curing - one of the Magic Keys to Success
  Lightweight sands
  Polymer Admixtures
  Spray Cures, The Bean & Beyond
  > 90 degrees F  
- Densifiers
- Base Rock
- Slope Protection
- Equipment/Screeds
- Test Pour & Jobsite Testing
  ASTM Standards for Pervious Concrete
- Field Experiment with Pervious Mixes & Live Demo
