

Presented by The Concrete Promotional Group &
The MO/KS Chapter of the

PROMOTING QUALITY CONCRETE IN THE KANSAS CITY METRO AREA

CONCRETE PARKING LOT DESIGN & CONSTRUCTION SEMINAR

Concrete is more competitive than ever; not to mention a sustainable building material too. Come join us to experience designing and constructing concrete parking lots with up-to-date technology and information for quality concrete construction:

- Subgrades
- Thickness
- Joints
- Reinforcement
- Concrete Pavement Analyst Software
- Mix Design
- Curing
- Concrete Pavement Repair & Overlays
- Sustainable Concrete

This seminar is for those who design & construct Concrete Parking Lots:

- Contractors
- General Contractors
- Engineers
- Architects

Bring your Laptop with you. Everyone will load the Concrete Pavement Analyst software on your computer. We will walk through the powerful parking area design and cost comparison software together. (a \$100.00 value)

Resource material will be distributed for you to add to your professional resource library.

Lunch provided. Special dietary needs please call us to make proper arrangements.
